

## Pool Rules

- The pools and gardens are for the use of owners and their guests. Members of the public are not permitted to use these facilities
- Please ensure you read and abide by the pool rules when using the pool. These are clearly indicated at the entrances to the pools
- The pools are open for swimming between 9:00 am and 9:00 pm and we ask that parents always keep a close eye on their children, as the pools are not attended by lifeguards. Please do not let them enter the pool area without being supervised by an adult. Please always close the pool gates after you
- Adults are responsible for the safety of children in their care
- Jumping and diving into the pools is not permitted. Many of them have very shallow areas
- Air beds are not allowed in the pool area, nor are ball games. This is for your own safety
- Please do not take glass to the pool (bottles or glasses). One small breakage could have very unpleasant consequences for someone who wants to enjoy their holiday
- Babies and toddlers MUST wear swimming nappies in the pools
- It is not permitted to chain sunbeds, chairs, or tables to any community property around the communal pools
- Please remove any sunbeds from the communal areas at the end of each day and store them securely on your own private property
