

## **HR Improvement Idea - Communication to Owners 86**

### **Q1. Define what it is you want to happen.**

A1. A ping pong table / table tennis (stone, or other outdoor ping pong table) at the sport facilities.

The following area has been identified: on the flat concrete area between the multi-purpose sports area and the 13<sup>th</sup> green of the golf course:

### **Q2. Explain what the benefits are.**

A2. Lots of people like to play ping pong. Each person could bring their own ping pong balls and paddles. It is not a big investment, but is lovely for people who can not play tennis or padel.

The resort could stipulate that the table could only be used from 9:00 - 21:00, so that owners of nearby properties would not be overly affected by the noise of the table tennis table. However, the location of the table tennis table should be sufficiently far away from residential properties because it is further away from the residential properties than the multi-purpose sports pitch.

A straw poll of owners has been conducted on the HR Owner's Forum FB page:

<https://www.facebook.com/groups/hrownersforum/posts/931655687385729>

The results of the pole were:

113 - for

15 - against

$113 + 15 = 128$

$113 / 128 = 88.28\%$  in favour

$15 / 128 = 11.72\%$  against

Hi all, I hope you are fine!

Last year the board asked us for ideas to improve the resort.

I had the idea for an outdoor table tennis table. I would like to know if other people also would like to have a table tennis table.

Please, answer my poll! 😊

Would you be in favour of spending 849.99 € of community funds (less than 50 cents per apartment) to purchase a sturdy outdoor table tennis table for the use of everyone on HR (equipment not supplied, but to be supplied by participants)? It could be positioned at the far end of the sports area on phase 7, furthest away from the road.

The cost of this table tennis table is currently retailing at 849.99 €

**Q4. How long will it take to implement?**

A4. The cost of the table tennis table could be funded from the 2022 communal budget, so as soon as the budget is agreed, the purchase and installation could be made.

**Q5. What resources would be required to implement the solution?**

A5. There will be some additional costs for the table tennis table to constructed of 44.99 €
